Our IoT Products

Innovative IoT Solutions for Modern Needs

Smart Solutions for Every Environment

Our product line up combines cutting-edge technology with practical applications

IoT School Alarm System

Enhancing Safety and Communication in Educational Environments

Key Features

- Automated bell scheduling with cloud-based management
- Emergency notification system with instant alerts
- Integration with PA systems and digital displays
- Mobile app for staff to trigger alerts and announcements
- Customizable zoning for targeted notifications
- Detailed activity logging and reporting

Use Cases

- **K-12 Schools:** Automated class period bells and emergency notifications
- **Colleges:** Campus-wide alert systems with zone control
- **Training Centers:** Flexible scheduling for varying class times

Smart EV Charging Station Box

Charge Smarter. Drive Farther. Go Greener.

Key Features

- Smart WiFi Connectivity
- Simple interface with app control—ideal for both tech-savvy and first-time EV users.
- Start, stop, or schedule charging sessions directly from your mobile device.
- Built-in overvoltage, overcurrent, short circuit, and earth fault protection.
- Suitable for indoor garages or outdoor walls, built to withstand dust, rain, and sun.
- Compatible with most electric vehicles (Type 1 or Type 2 connectors, configurable).

Use Cases

- **Home Charging:** Easily install the Smart EV Charging Station Box in your garage or driveway and charge your EV at your convenience.
- **Commercial Charging:** Perfect for offices, apartment complexes, and commercial buildings—enable EV access for employees and residents.
- **Public Charging:** Deploy at malls, fuel stations, or community parking areas to offer smart EV charging to the public with remote access.

Smart WiFi Modular Touch Switch

Elegant Control for Modern Spaces

Key Features

- Sleek glass panel with responsive touch interface
- WiFi connectivity for remote control via app
- Voice assistant compatibility
- Scene setting and automation capabilities
- LED status indicators with adjustable brightness
- Available in single, double, and triple gang configurations

Use Cases

- **Residential:** Upgrade home lighting with elegant controls
- **Hospitality:** Enhance guest experience with intuitive room controls
- **Commercial:** Streamline lighting management in offices and retail spaces
